TMC solution

Automated Travel Risk Information – Safety Without the Effort

Stay ahead of risks from the moment a trip is booked. Safeture automatically connects your travel data with real-time intelligence, so every traveler gets the right information at the right time, no clicks required.

Automatic Data Transfer
Your travel bookings flow seamlessly from your travel management company into the system.

Instant Risk Matching
Each booking is automatically linked with the latest incident and risk data.

Pre-Trip Briefings
Personalized destination reports and risk summaries land in the traveler's inbox before departure.

Live Alerts on the Move
Email and SMS updates keep travelers informed about relevant incidents as they happen.

Arrival Messages
Key country information is shared automatically when travelers cross a border.

Benefits for the Traveler:

- Always informed through proactive alerts and updates.
- Confident, data-driven travel decisions.
- Trusted, verified destination intelligence.
- Smooth communication—everything happens automatically.

Upgrade to the Full Safeture Platform

- Get complete visibility and control of your travelers.
- Full Admin Dashboard: See every traveler, trip, and location in real time.
- Mass Communication: Send tailored alerts, scheduled check-ins, and emergency messages instantly.
- Flexible Integrations: Expand your solution with e-learning, facilities management, SSO, and more.

Traveler Experience – Powered by the Safeture App

- Access to Riskline intelligence directly in the app.
- Automatic alerts via push, email, and SMS
- Local news, travel plans, and a built-in currency converter.
- Quick access to emergency numbers, hospitals, hotels, and embassies—anywhere in the world.
